

CIVIC EDUCATION ASSIGNMENT

(1) **EXPLAIN SUPREMACY OF THE CONSTITUTION**

The concept of the supremacy of the constitution confers the highest authority in a legal system on the constitution. Stating this principle does not mean just giving a rank order of legal norms. The point is not solely a conflict of norms of differing.

(2) **STATE FIVE (5) REASONS THE CONSTITUTION IS SUPREME**

1. **Establishing the Rule of Law:** The supremacy of the Constitution ensures that all laws and government actions must conform to the principles and rights enshrined in the Constitution, thereby establishing the rule of law.
 2. **Protecting Individual Rights:** It serves to protect the fundamental rights and liberties of individuals from being infringed upon by the government or other entities.
 3. **Limiting Government Power:** By establishing the Constitution as the supreme law of the land, it limits the powers of the government and prevents any branch from becoming too powerful.
 4. **Promoting Stability and Predictability:** The supremacy of the Constitution provides a stable and predictable legal framework for governance, which is essential for a functioning society.
 5. **Ensuring Constitutional Governance:** It ensures that the government operates within the framework of the Constitution, thereby promoting democratic governance and accountability.
- These purposes collectively contribute to the establishment of a just, fair, and orderly society.
